Kendra Ouellet

Full-Stack Software Developer

Hamilton, Ontario | 289-442-6550 | kendraoue@gmail.com | kendraoue.com

OBJECTIVE:

A curious and adaptable Full-Stack Developer who thrives on challenging work and continuous learning. A collaborative team player with strong cross-functional communication skills, comfortable working independently or alongside technical and business stakeholders, actively contributing to discussions and seeking feedback to improve solutions. Skilled at turning business requirements into maintainable software solutions through application modernization, performance optimization, CI/CD automation, and reliable production support.

WORK EXPERIENCE:

Application Developer, Pulse Alert
Hamilton, Ontario, August 2025 - Present

- Reduced Cosmos DB calls from 300+ to 3 per 100 users, improving application responsiveness through slim projections, lazy loading, repository-based access, and Application Insights diagnostics.
- Built a secure ASP.NET Core Web API service for cross-database transfers using JWT validation, API authentication/validation, Azure Key Vault, and Docker environment configuration.
- Modernized a monolithic ASP.NET Core MVC application through modular services, separation of concerns, and defensive error handling, improving maintainability and team development efficiency.
- Established pre-production application environments for testing, CI/CD validation, technical and user documentation, Scrum ceremonies, and cross-team code reviews, improving release quality, collaboration, and team delivery.

Software Developer, Seradex Inc.
Burlington, Ontario, May 2024 - September 2024

- Improved ERP regression test coverage, consistency, and testing efficiency by building an Excel-driven Facade pattern helper that enabled reusable TestComplete tests across database and server environments.

Application Developer, City of Hamilton
Hamilton, Ontario, September 2023 - December 2023

- Rebuilt a legacy VB training-management application in C#/.NET and Blazor, adding training-event registration, reminders, admin management, and Excel/CSV exports to reduce recurring issues and streamline staff workflows.

EDUCATION:

Computer Systems Technology - Software Development (Co-op)
Mohawk College, Hamilton, ON |
09/2021 - 02/2025
Dean's Honour List

Computer Systems Technician- Software Support
Mohawk College, Hamilton, ON |
09/2021 - 02/2024

SKILLS:

Technical Skills:

- C#
- JavaScript
- SQL Server
- Azure App Service
- GitHub Actions
- .NET 8/9
- TypeScript
- Cosmos DB
- Azure Key Vault
- CI/CD
- ASP.NET Core
- React
- PostgreSQL
- Azure Functions
- Razor Pages
- REST APIs
- Postman
- Docker
- Application Insights
- SPA

Soft Skills:

- Active Listening
- Adaptability
- Self-motivated
